

Jig Grinding Machine

MOORE PRECISION 2 C

Sorry the machine has been sold already!

stock-no.:	0800805
type of machine:	Jig Grinding Machine
make:	MOORE PRECISION
type:	2 C
year of manufacture:	nicht bekannt
type of control:	conventional
country of origin:	England
storage location:	Leipzig 1
delivery time:	immediately
freight basis:	Ex location -free loading
price:	on request

technical details

x-travel:	420 mm
y-travel:	280 mm
Table dimensions:	560x310 mm
electrics - voltage/frequency:	380/50 V/Hz
revolution per minute:	16 000 - 40 000 U/min
number of T-slots:	4 Stück
space requirements of the machine approx.:	B:1,25xT:1,5xH:1,9 m

additional information

Jig Grinding machine Documents available
vertical adjustment of the grinding spindle: 250mm
automatic moving equipment of the main spindle.
grinding head with compressed air engine.
speed range: 16000 - 40000 rpm.
distance between table and grinding head lower edge: 50 - 460mm
radial adjustment of the grinding spindle from the middle 28,6mm
grinding area with ceramic mounted points: 4,8 - 127mm
grinding area with diamond mounted points: 0,4 - 4,8 mm
continuously variable reciprocating motion of the grinding head and 4 - 240 strokes/minute
piston diameter of the grinding wheel for collet in the grinding head: 3,2 - 9,5mm
Motor capacity 425 - 1440 rpm
with grinding dust extraction system;
automatically adjustable stroke.
grinding accuracy 0,001mm
Machine is in working condition.
